Chess is fun and can be learned quickly and easily. Studies have found that chess helps improve test results in reading, science, and math, and produces growth in critical cognitive skills. Beyond academia, chess influences social behavior including self esteem, respect for others, patience, and good sportsmanship. And did we mention: **it's FUN!**

Boards and sets are provided for our classes. The minimum class size is 10; maximum is 20. Enrollments are accepted in the order received. We will call only if the class is full and we cannot accept more enrollments. *For siblings, the first child is full price; additional siblings are half price. Also, some reduced fees are available to low-income families upon request.*

The Berkeley Chess School is a nonprofit organization offering chess instruction from kindergarten through high school since 1982. We are an affiliate of the US Chess Federation. Over the years our students have won many state championships and several have gone on to become National Masters, FIDE Masters, and International Masters.
