

COMPUTING INNOVATION CENTER

at KOREMATSU MIDDLE SCHOOL

Robotics with LEGO Mindstorms EV3

Join us as we explore the different sensors and motors that are used to create LEGO Mindstorms EV3 robots. We'll use the LEGO EV3 software to write code that the robot uses to move around, interact with objects, and even sense color! This course is designed for students who are interested in learning how to combine the worlds of robotics and coding in a fun and exciting way! **No Previous experience required**

WHEN: Wednesdays in April and May (4/6 to 5/25)
TIME: 1:45 to 3:30 pm

WHERE: Room A 217
COST: \$244

Coding Fundamentals with Scratch

Code your own video games or stories with Scratch, a block-based coding language. We will design the characters, create the game or story, and write the code to bring it all together. This course is designed for students who have completed the Hour of Code® and are interested learning how to code. **No Previous experience required**

WHEN: Thursdays in April and May (4/7 to 5/26)
TIME: 2:45 to 4:00 pm

WHERE: Room A 217
COST: \$209

Spaces are limited. Sign-up by visiting:
